Antimicrobial Shower Hose White

Features

- Fully antimicrobial with an antimicrobial additive impregnated inner Hytrel Liner and flexible external PVC cover
- Antimicrobial additive protection significantly reduces bacteria growth
- Smooth internal waterway reduces risk of biofilm formation
- An inner diameter of 10 mm ensures optimised flow rates at low pressure
- Optional metal and color coded conical connections
- Available in a range of lengths

Order Information

Item	Code
Antimicrobial Shower Hose White 1.25 m	03-093051
Antimicrobial Shower Hose White 1.50 m	03-093050
Antimicrobial Shower Hose White 1.75 m	03-093052
Antimicrobial Shower Hose White 2.00 m	03-093053

Technical Data

Max. operating pressure	5 bar
Max. operating temperature	60° C
Inner diameter	10 mm
Length	1.25 m, 1.50 m, 1.75 m, 2 m
Connection	½ inch thread
Colour	White

Microbial reduction

T-safe antimicrobial additive is proven to reduce surface bacteria contamination by 99.9%. Independently tested in accordance with ISO 22196.

In an independent study conducted over 12 weeks, the T-safe Antimicrobial Hose was proven to reduce *Pseudomonas aeruginosa* and other aerobic bacteria by up to 95.5% and 99% respectively, in comparison to standard commercially available hoses.

Approvals

ISO 22196, Compliant with EU food and drinking water directives.w
